

# EAGLE WATER TREATMENT SYSTEMS

May 20/2015.

We installed an Eagle reverse osmosis <sup>water system</sup> in 2014 because we had 3 year old twins and wanted them to drink healthy, clean water. My husband suffers from chronic gastritis and couldn't even drink bottled water without having stomach problems. Since he started drinking the reverse osmosis water he has ~~not~~ not had <sup>any</sup> stomach issues and never travels without taking our reverse osmosis water along.

# EAGLE WATER TREATMENT SYSTEMS

In 2013 Eagle Industries provided me with a Reverse Osmosis Drinking Water System and a Clear Station Air Cleaner. I appreciated the professional manner of the sales and installation staff. The ongoing yearly maintenance & filter replacement too have been handled in a very professional manner.

In 2014 I purchased Eagle Silver Water Softener Conditioner. I am very impressed with the construction of this unit, the silent operation and 100% support of the unit by Eagle. I would recommend their products very highly.

To whom it may Concern - Eagle Industries  
We have enjoyed using the services  
of our reverse osmosis. The water  
for drinking tastes great. I like the  
softening for laundry as well.  
Service is also great. Thank you

MAY-12-2015

Water plays an important role in our daily lives, so it is important to have safe, clean and tasty water. We chose Eagle Water treatment system because it provided us with delicious water that was cost-effective in the long term, ~~and~~ environmental friendly and made cleaning easier. ~~We have been~~ We ~~are~~ are very satisfied with ~~the~~ <sup>quality of</sup> washing clothes, dishes, hands and body. We are able to use less product ~~and~~ but gain better quality.

Mildred Chapman May 21/15

My water softener is working  
because my skin is not itchy and  
dry after a shower.

The Reverse Osmosis is wonderful  
because the drinking water doesn't  
have a sulphur taste & iron.

Thank you.

The best part of the Eagle System is how soft the water in my house has become! I have noticed a large change in the amount of lotions, conditioners and cleaning products that I have to use - which is saving me money in the long run. Even my dogs love it. I no longer have to worry about my dogs not being hydrated. Before the system was installed in my home, my dogs would not drink the tap water and would prefer to wait for rain to come in the summer (which doesn't always happen). Now they are excited to get clean, fresh water to drink.
